

1. CROSS JOIN

```
select roll_no, stud_name, marks from students cross join stud_marks;
```

2. INNER JOIN

```
select * from students inner join stud_marks on students.roll_no=stud_marks.stud_roll where marks between 30 and 75;
```

3. LEFT OUTER JOIN

```
select roll_no, stud_name, marks from students left join stud_marks on students.roll_no=stud_marks.stud_roll;
```

4. RIGHT OUTER JOIN

```
select roll_no, stud_name, marks from students right join stud_marks on students.roll_no=stud_marks.stud_roll;
```

5. FULL OUTER JOIN

```
select roll_no, stud_name, marks from students full outer join stud_marks on students.roll_no=stud_marks.stud_roll;
```

6. NATURAL JOIN

```
select * from students natural join stud_marks where marks >= 35;
```
